[Windows 10: KB3081455 Install Issues After Start Menu Changes](#)

The screenshot shows the Windows Settings application, specifically the 'UPDATE & SECURITY' section. The 'Windows Defender' option is selected in the left-hand navigation pane. The main content area displays the following information:

- Help us make Windows Defender better by sending Microsoft malware samples so we can learn about potential security problems and catch them earlier.**
- A toggle switch for Windows Defender, which is currently turned **Off**.
- A link for [Privacy Statement](#).
- Exclusions**: A section explaining that Windows Defender won't scan excluded files, making the PC more vulnerable to malware. It includes a link for [Add an exclusion](#).
- Version info**: A list of version numbers for various components:
 - Antimalware client version: 4.8.10240.16384
 - Engine version: 1.1.12101.0
 - Antivirus definition: 1.207.724.0
 - Antispyware definition: 1.207.724.0
 - Network inspection system engine version: 2.1.11804.0
 - Network inspection system definition version: 115.22.0.0
- A link for [Use Windows Defender](#).
